

You are invited to two seminars on December 10th with

Zayna Khayat - one of Canada's top health innovators

on the topic

Innovation and the future of health care

Come meet Zayna Khayat!

She is a future strategist leading a team working with cutting edge innovation at SE Health, a national Canadian social enterprise providing home care, health solutions and health education.

Zayna previously led health innovation at MaRS in Toronto, one of the world's largest urban innovation hubs. She also helped initiate and develop the national health innovation school in the Netherlands.

LECTURES

1. Lessons learned in driving health system innovation

In this session Zayna will discuss systems for health care and social innovation, such as innovation ecosystems and business models.

Date: Dec. 10th
